

Scottish Highlands Tourist Info

The Scottish Highlands Accommodation web site is growing steadily as we add B&Bs, Hotels, Guest Houses, Scottish Castles and Self Catering establishments. But it's much more than an accommodation directory. It's a tourism portal for the Highlands. You will find details on Visitor Attractions; Scottish Restaurants and Cafes; Leisure Activities - walking, climbing, golfing with 38 golf courses throughout the Highlands; Theatres and Events; Museums, Galleries and Art & Craft Centres and a Tourism related Business Directory.

We are delighted that you are planning a visit to the Highlands of Scotland - renowned for its wonderful scenery - it's lochs and glens. Of course Scotland has a rich cultural heritage and you may wish to explore your clan history and visit the home of your ancestors. You'll find a wealth of links to various towns across the Highlands so you can easily plan a visit and arrange accommodation.

Don't forget the superb National Parks, where you can get close to nature in stunning surroundings. There are also numerous outdoor activities - bird watching, fishing, golf, cycling walking and of course, hill climbing and walking.

We do hope that this site will soon become your first stop for seeking out places to visit, leisure pursuits and events in Scotland and in particular Scottish Highlands Accommodation.
